Art Unit: 1755

1. This Office action is in response to the amendments filed 2/5/03 and the IDS filed 2/28/03 and refers to the Office action mailed 2/5/03, which ultimately refers to the Office action mailed 11/17/00.

- 2. Claims 5, 11, 15-17 and 22 are objected to because of the following informalities: in claims 15-17, there are still numerous instances where "cyclo" is misspelled as well as "methylene" and "cyclopentadienyl" as noted in the immediately previous Office action. In claims 5 and 22, insert --an-- before "alumoxane" and --a-- before "trialkylalumium". Further in claim 22, "trialkylaluminum" is misspelled. Appropriate correction is required.
- 3. Claim 3 is rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 3, since the R^{III} group already has a hydroxy group bonded to it in claim 1 and is defined therein as being divalent, having monovalent groups being R^{III} with a hydroxy already bonded to them is inconsistent.

- 4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
- 5. Claims 1-4, 6, 7, 10, 11, 13-16, 18, 19 and 21-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Vega as cited in and for the reasons of record given in paragraph 9 of the Office action of 11/17/00.

Application/Control Number: 09/300302 Page 3

Art Unit: 1755

6. Claims 1-8, 10, 11 and 13-24 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hidalgo Llinas as cited in and for the reasons of record given in paragraph 10 of the Office action of 11/17/00.

- 7. Claims 6 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Canich as cited in and for the reasons of record given in paragraph 11 of the Office action of 11/17/00.
- 8. Applicant's arguments filed 2/5/03 have been fully considered but they are not persuasive.

As applicants know, a reference is not limited to its preferred embodiments, hence that the prior art used here does not disclose the hydroxylated versions of the compounds as being preferred is of no moment. Furthermore, since the Vega and Hidalgo Llinas references are from the same assignee as the present application with common inventors, applicants had a chance to claim their now preferred embodiment upon the first disclosure of it to the public, but apparently chose not to, and what is not claimed is dedicated to the public.

9. Any inquiry concerning this communication or earlier communications from the examiner should be directed to J. Pasterczyk whose telephone number is (703) 308-3497. The examiner can normally be reached on M-F from 9 to 5:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mark Bell, can be reached on (703) 308-3823. The fax phone number for the organization where

Art Unit: 1755

this application or proceeding is assigned is (703) 872-9310 for normal faxes, 872-9311 for after final faxes.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is (703) 308-0661.
